The slides look like they've addressed all the comments. I don't have any more. I recommend removing the comment bubbles before sharing the slides with RD. Thank you, -Greg

Frank and I revised the broflanilide slides based on review comments. The attached file is a revised version of the presentation.

Subject: Broflanilide PFAS slides

The attached slide deck has ERB-1 inputs for the PFAS slides for internal ERB-1 Review. Frank and I drafted Slide #s 12-14 and 17 related to broflanilide eco/PFAS issues. Please provide your inputs. Once I hear from you, I will incorporate our slides into RD's PowerPoint document. Thanks. Faruque
